# SUMAN KRISHNA

Final Year Undergraduate, Department of Computer Science and Engineering
suman2301275.stu@ctgroup.in | +91-96081-10425
Suman Krishna krishnaaidev

## Professional Summary

Aspiring Machine Learning and Data Science engineer with hands-on experience in building end-to-end ML pipelines, deep learning models (NLP, Computer Vision), and interactive dashboards (Power BI, Tableau). Proven leadership in coordinating large-scale technical and cultural events (500+ attendees).

## Education

**2023–Present** B.Tech Computer Science and Engineering
CT Institute of Engineering Management and Technology, Jalandhar, Punjab

**2020–2022** Class XII (BSEB) – S.M.R.C.K College, Samastipur, Bihar

**2020** Class X (CBSE) – St. Paul Secondary School, Samastipur, Bihar

## Scholastic Achievements

- 1st position – Best Photography (Sept 2023)
- 2nd position – Quiz Debate (Oct 2023)
- 2nd position – Chess at Sports Meet (Dec 2024)
- 3rd position – Debugging Competition (2024)
- Anchoring at Sci-Tech Fiesta (Feb 2026)
- Participation in Robotics Championship (CERI Society, Feb 2026)
- Technical Support Coordinator at Byteverse 1.0 Hackathon (Aug–Sep 2025)

## Work Experience

**Data Analytics Intern** *Apr 2026 – Jun 2026*
*EduTech Solutions*
- Built interactive dashboards in Power BI and Excel for sales, segmentation, and SaaS KPIs.
- Conducted A/B tests and time-series analysis using Python and SQL to optimize marketing and engagement.
- Managed end-to-end data pipelines and predictive modeling.
- Extracted, cleaned, and analyzed student performance and business data to deliver actionable insights and completion reports to stakeholders.

**Machine Learning Intern** *May 2025 – Sep 2025*
*Averixis Solutions*
- Worked on ML projects involving data preprocessing, model building, and evaluation.
- Implemented ML algorithms using Python and libraries (NumPy, Pandas, Scikit-learn).
- Analyzed datasets to extract insights and improve model accuracy.
- Collaborated with team members to design and deploy ML solutions.
- Gained hands-on experience in real-world ML workflows.

## Key Projects

**Superstore Sales and Profit Dashboard** *June 2026 – for EduTech Solutions*
- Interactive Power BI Dashboard – 4 connected pages with drill-through and filters.
- Automated Python EDA – One-click script generates summary stats, charts, and CSVs.
- Profit  Discount Deep Dive – Identifies loss-making products and optimal discount thresholds.

**Multimodal Depression Detection System** *May 2026 – Present*
- Data set collected from USC DAIC-WOZ (University of South California, Distress Analysis Interview Corpus - Wizard of Oz) data set.
- Building a multimodal depression detector combining BERT, Wav2Vec2, and ResNet-LSTM for text, audio, and video analysis.
- Integrated into a web app with live emotion tracking and a Chrome extension for telehealth applications.

**Health Risk Analysis using Air Pollution Parameters** *Apr 2026 – Jun 2026*
- Analyzed how airborne pollutants (PM2.5, PM10, NOx, SO, CO, ozone) impact human health using environmental monitoring, epidemiological studies, and data analytics.
- Examined exposure levels, vulnerable populations, and health outcomes including respiratory diseases, cardiovascular disorders, and cancer risk.
- Findings help policymakers and health agencies design mitigation strategies and improve air quality standards.

**Career Guidance and Job Recommendation System** *Jan 2026 – Mar 2026*
- Designed and developed a data-driven ML system that analyzes technical competencies, programming ex-

pertise, soft skills, and academic performance to generate personalized career path predictions and job role recommendations.
- Implemented end-to-end ML pipeline including data preprocessing, feature engineering, model training, and evaluation.
- System identifies skill gaps and supports targeted upskilling for students and job seekers.

**Plant/Crop Disease Recognition System** *Jul 2025 – Nov 2025*
- Built an end-to-end ML & Computer Vision system for automated plant disease detection from leaf images using CNNs (TensorFlow, Python).
- Trained on the PlantVillage dataset, applying image preprocessing, normalization, and feature extraction to achieve $\sim 95\%$ model accuracy.
- Developed and deployed a Flask-based web application enabling real-time image upload and disease prediction with confidence scores.

**Design and Fabrication of a both Wired and Bluetooth Control Robo Car** *Feb 2026*
- A manually controlled wired Robo Car designed to understand basic robotics, motor control, electrical circuits, and teamwork through hands-on implementation.
- Understanding the use of Arduino module, Bluetooth module, and motor driver, how to design and run an Arduino car application.

## Technical Skills

| | |
|---|---|
| **Programming Languages:** | Python, Kotlin, SQL, HTML/CSS, Flutter |
| **Libraries & Frameworks:** | Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, MERN (basics) |
| **Tools & Platforms:** | Jupyter, Google Colab, Tableau, Power BI, Git, GitHub |
| **Domains:** | Artificial Intelligence, Machine Learning, Deep Learning, Statistics, Regression, Classification, NLP, Computer Vision |

## Positions of Responsibility

- **Google Student Ambassador**: Represented Google on campus; organized technical workshops, webinars, and awareness sessions. Sep 2025 - Present
- **Head Coordinator** – 15-Day Robotics Workshop & Wings of Innovation / Robo Race 2026: led 10+ volunteers, managed 150+ participants. 30 Mar 2025 - 15 April 2025
- **Head Coordinator** – United Fest 2025: directed state-themed cultural fest; managed 10+ coordinators, 50+ volunteers, 500+ attendees.
- **Technical Support Coordinator** – Byteverse 1.0 Hackathon (Aug–Sep 2025): led support team resolving real-time issues for 250+ participants.
- **Volunteer** – Adbhut Aarambh 2025: facilitated on boarding for 3000+ new students.

## Relevant Courses

- Basics of Python (Cambridge International through UniAthena),
- Basics of Data Science (Cambridge International through UniAthena),
- Android App Development with Kotlin (Infosys Springboard),
- Android Development Mentorship Program (May 2024 – Aug 2024, Pregrad - Noida),
- Machine Learning – Campus X (YouTube).
- Deep Learning – Campus X (YouTube).

## Extra-Curriculars

- Photography and Cinematography
- Sports: Played Chess and Cricket for college teams and individually
- Anchoring and Coordinating: Multiple events and programs held at the college
- Marathons: Run for multiple Marathons
